January 24, 2023

To the Ratepayers and Honorable Board of Directors of
Las Gallinas Valley Sanitary District
San Rafael, California

It is our pleasure to submit this Annual Comprehensive Financial Report (ACFR) of the Las Gallinas Valley Sanitary District (the District) for the fiscal year ended June 30, 2022 (FY2022). This report was prepared by the District staff that collected and analyzed the financial statements and other information presented herein.

This ACFR was prepared by District staff in conformance with the principles and standards for financial reporting set forth by the Governmental Accounting Standards Board (GASB) and Generally Accepted Accounting Principles (GAAP). Recommended guidelines by the Government Finance Officers Association (GFOA) of the United States and Canada were also followed.

California law requires that every local government publish a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2022.

The management of the District assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive system of internal controls that is established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The District's basic financial statements have been audited by Nigro & Nigro, a registered public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2022 are fairly presented in conformity with GAAP and are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statements presentation. No material financial matters of concern were identified. Their audit report is presented as the first component of the financial section of this report.

The ACFR represents the culmination of all budgeting and accounting activities engaged in by management during the fiscal year. GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A) which is presented after the independent auditors' report. This letter of transmittal and introduction is designed to complement the MD&A and should be read in conjunction with it.

FINANCIAL CONTROLS AND ACCOUNTING SYSTEMS

Internal Controls

To ensure that accounting data is compiled and properly recorded, and to permit the preparation of financial statements in accordance with generally accepted accounting principles, the management staff of the District is responsible for establishing and maintaining an accounting system and internal controls structure. These controls are designed to ensure that the assets of the District are adequately protected from loss, theft, unauthorized use or disposition, or other misuse. The internal controls structure is designed to provide reasonable, but not absolute, assurance that this objective is met while recognizing that: (1) the cost of the controls should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgment by management. We believe that the District's internal accounting controls adequately safeguard its assets and provide reasonable assurance that financial transactions are recorded properly and are free of any material misstatements.

Budgetary Controls

The District is not required by statute to adopt a budget; however, in its commitment to maintain fiscal responsibility, the District adopts an annual budget prior to June 30th each year. In preparation for drafting a budget, management staff meets with the District's Board of Directors (the Board) to update the Strategic Plan to determine the strategic goals and vision for the upcoming year. The budget outlines and reflects the major elements of the upcoming fiscal year operating and capital plans, from which management allocates funds that are necessary for specific departmental activities and capital projects. Management integrates these priorities into the annual budget. In June 2021, the Board accepted a two-year sewer rate study and adopted a budget with 5-year capital improvements plan for 2021 through 2025, which includes a significant investment toward the construction of a new Operations and Control Center Building at the wastewater treatment plant facility. In June 2022, the Board adopted the budget for Fiscal Year 2022-23. Budgetary control is maintained at the detailed line-item level. The General Manager (GM) may approve expenditures in excess of budgeted amounts up to \$15,000; for items in excess of this the Board must be informed as soon as administratively feasible. For consultant contracts the GM's signature authority is up to \$60,000.

Accounting System

Las Gallinas Valley Sanitary District is an independent special district. The District's accounting structure, insofar as practical and in accordance with GAAP, complies with the Uniform System of Accounts for Waste Disposal Districts provided by the California State Controller's office.

The District reports its activities as an Enterprise Fund under the broad category of funds called proprietary funds. The District uses the full accrual basis of accounting. The District tracks expenditures by department, with each department delineated by function and specific activity, in order to provide management and the Board with better cost control measures. At the end of each fiscal year, these costs are combined to arrive at the financial position and results of operations reflected in the District's basic financial statements.

HISTORY AND PROFILE OF THE DISTRICT

The District was established on April 6, 1954 pursuant to the California Health and Safety Code, Division 6 – Sanitary District Act of 1923. It is located approximately two miles northeast of the City of San Rafael and 20 miles north of San Francisco. It covers an area of about sixteen square miles in the northern part of the City of San Rafael and surrounding unincorporated areas in Marin County, California, including the communities of Lucas Valley, Marinwood, Santa Venetia and Terra Linda. The District's boundaries are Hamilton Field (a former air force base) to the north, San Pablo Bay to the east, and central San Rafael to the south. The District serves a population of approximately 30,000 people. The District is primarily residential and built out, resulting in a fairly stable customer base. As of July 1, 2022, the connections are 97.3% residential (12,448 units) and 2.7% commercial/industrial (343 units); however, the revenue from these connections is 79.66% residential and 20.34% commercial. Impacts from COVID-19 resulted in lower water use by commercial customers, which resulted in lower revenue from commercial customers in fiscal year 2021-22.

Financing Activities

The District has been planning a multi-year, multi-million-dollar Secondary Treatment Plant Upgrade and Recycled Water Expansion (STPURWE) construction project for several years. This project will upgrade the treatment plant to meet more stringent regulatory requirements and allow the District to fully serve Marin Municipal Water District's recycled water customers. The District received bids in November 2017 however due the impact of design complexities on operations during construction, the bids were in excess of available funds. The project has been redesigned and rebid during 2018 and is currently under construction. The \$41 million in bond proceeds that were issued in 2017 to fund the projects has been drawn down and exhausted in October 2020. In addition, the District secured \$12 million in additional financing from the California Infrastructure & Economic Developmental Bank (iBank) for the STPURWE project. As of June 20, 2022 \$11,432,240 of these funds have been received with the remaining retention balance of \$567,760 to be disbursed upon project completion.

Sewage Collection

- The District operates a sanitary sewer collection system comprised of approximately 105 miles of gravity sewer lines, 6.72 miles of force mains, and 28 pump stations. There are 2,985 manholes and approximately 52.5 miles of privately owned laterals.
- The District continuously televises its sewer mains; the process requires four years to televise all of the system. Televising these lines allows District staff to identify future repair and replacement projects, as well as monitor the integrity of the system.
- The District previously performed smoke testing of the District's sewer mains and laterals to detect leaks in the collection system. It is a process whereby smoke is blown into the sewer mains, lower and upper laterals, to determine where there may be cracked pipes or storm water cross connections. This process helps to identify where there may be Infiltration and Inflow (I&I) into the sewage collection system. I&I is a major concern for wastewater treatment plants since large storms may produce flows that overwhelm the capacity of the sewage collection system and possibly the plant, resulting in sewage spills, plant violations, overflows and fines. The District has contracted to perform a hydraulic study of the collection system to help prioritize capacity related upgrades. While the study is underway, additional smoke testing may be performed on sewer line segments where I&I has been identified as a concern.

Sewage Treatment

- The District operates a sewage treatment plant with a permitted dry weather average capacity of 2.92 million gallons per day (MGD).
- The District treated an average daily flow of 2.33 MGD of sewage per day in FY 2021-22. All influent flow is treated. Some flows are "treated" to higher levels (Recycled Water) and some to lower levels (Blending during storm events).
- The District's treatment plant uses primary treatment to separate the solids from the wastewater; trickling filters and deep bed filters to provide secondary treatment. Treated effluent is disposed of through discharge pipes into Miller Creek which flows to San Pablo Bay during discharge season, November through May. Discharge coincides with wet weather when treated effluent can be diluted by higher levels of bay water due to rain.
- All readily settleable solids and grit are removed from the wastewater stream; grit is then disposed of in a landfill. The solids are treated by gravity thickening and anaerobic digestion, and then pumped to one or more of three storage ponds, where they are typically retained for one year prior to surface disposal. The treatment plant produces 1.5 Million Gallons of Class B biosolids at 3% solids per year.

Reuse of Treated Wastewater

- The District is producing recycled water year-round to meet increasing demand during the dry months of summer and fall. In the past, recycled water was predominately used during the summer months, which aligned with the District's non discharge period of June through October.
- The District has a water reclamation project on 385 acres of diked bay lands located to the northeast of the treatment plant. This project includes a 20-acre wildlife marsh pond, 40 acres of storage ponds, 200 acres of irrigated pasture, and 3.5 miles of public trails which are part of the San Francisco Bay Trail. During FY 2021/22, 84.7 million gallons were used for pasture irrigation of organic hay crops.
- The District delivers effluent to Marin Municipal Water District (MMWD), which further treats it so that it can be used for irrigation of landscapes, including golf courses and playing/ recreation fields, dual plumbing for toilet flushing, cooling water uses, and car washes within the District's boundaries. In 2017, the District reached an agreement with MMWD to expand the District's recycled water treatment plant to provide tertiary treated wastewater which can then be distributed to MMWD's customers. MMWD decommissioned its existing plant, which is located on the District's property, to allow for construction of STPURWE project. As part of the agreement, MMWD made a capital contribution towards the existing facility and makes payments towards outstanding debt which was issued to build the existing facility and for the expansion. The expansion began construction in December 2018 and the recycled water facility was completed in March 2021 with the treatment plant upgrade scheduled for completion in early 2023.

- The District's new expanded recycled water treatment facility, online since March 2021, has a design capacity of over 5 million gallons per day. The completed expansion effectively quadrupled its capacity. The recycled water delivery from the expanded facility is now being provided to the North Marin Water District (NMWD) and the Marin Municipal Water District (MMWD), who then sell it for use in landscape irrigation, car washes, cooling towers, commercial laundries, and toilet flushing. The District produced 22.24 million gallons to NMWD and 94.2 million gallons for MMWD during FY 2021-22.

Lab and Public Outreach

- The District operates its own lab which collects samples, completes analysis, and performs other testing to comply with the plant discharge permit issued by the State Water Resources Control Board.
- Central Marin Sanitation Agency and District lab staff members manage the source control program. This includes a Fats Oils and Grease (FOG) Program that is designed to prevent customers from discharging substances that are harmful to the sewage treatment process or that may cause clogs to sewer mains and pump stations.
- Lab staff members participate in the Marin County Sanitation Agencies Public Education Program. This program allows participating agencies to combine resources and have a unified message to educate the public about the proper disposal of and to collect pharmaceuticals, mercury, batteries and other household hazardous waste in the County. They participate in programs with school children, the Marin County Fair and various farmers' markets and festivals.
- The District offers tours of the plant treatment works and enhanced wetlands upon request from schools, community groups and other members of the public.
- The District produces a newsletter twice a year to educate the public about the sewer collection system, treatment plant and their sewer laterals. Staff has noted an increase in knowledge by homeowners regarding maintaining their sewer laterals.
- The District has a website at www.lgvsd.org where it posts current developments, public education topics and information about what is happening at the Board meetings, the plant and in the District.
- The District was awarded the District Transparency Certificate of Excellence by the Special District Leadership Foundation during July 2015, 2017, 2019, and September 2022 in recognition of its outstanding efforts to promote transparency and good governance. The biennial award period that began in 2019 was extended through 2022 due to the COVID pandemic.

Solid Waste (Garbage) Services and Recycling

The District manages the refuse hauling service for the unincorporated areas in its District. The franchise has been awarded to Marin Sanitary Service which provides curbside recycling, solid waste, yard waste and food scraps hauling, and safe hazardous waste disposal services that are helping achieve Marin County's goal of zero waste.

Compared to neighboring jurisdictions, the District's customers in the unincorporated area enjoy one of the lowest garbage and recycling rates. As of January 1, 2022, residential customers pay a monthly service fee of \$35.18 for a 20-gallon cart and \$41.38 for a 32-gallon cart. This is below the Marin County average of \$51.18 per month for a 32-gallon cart.

ECONOMIC CONDITIONS AND OUTLOOK

The District is comprised primarily of residential units with commercial and some light industrial areas. It is substantially built out with in-fill developments in pockets of undeveloped land and redevelopment of commercial areas that were built over twenty years ago. The District does not expect significant number of or large new, customers in the near future. A capital facilities charge study was recently performed in December 2022. The capital facilities charge is \$8,889 effective January 6, 2023 and will be adjusted by the Engineering News Record Construction Cost Index for San Francisco each July.

The Board adopted a two-year rate review and capital improvement plan in June 2021, which provided for an annual sewer user charge rate of \$1,122 effective July 1, 2022. This rate, when combined with the average property tax revenue received by the District per single family dwelling unit, is below the average for neighboring agencies in Marin County. Each year, the Board reviews the operating and capital needs of the District to determine the revenue requirements in setting the upcoming rate.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Las Gallinas Valley Sanitary District for its ACFR for the year ended June 30, 2021. In order to be awarded a Certificate of Achievement, a governmental entity must publish an easily readable and efficiently organized ACFR. This report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

This ACFR is the culmination of the hard work and dedication of many District employees and the audit team under the direction of John Cropper, CPA of the accounting firm Cropper Accountancy Corporation. Las Gallinas Valley Sanitary District staff would like to acknowledge the support of the Board for its continuing direction and oversight in providing value to the community of San Rafael.

Las Gallinas Valley Sanitary District

Annual Comprehensive Financial Report

Mission Statement

Our Mission

The Mission of the Las Gallinas Valley Sanitary District is to protect public health and our environment, providing effective wastewater collection, treatment, and resource recovery.

Vision

Recognizing that sanitation and wastewater treatment is vital to protecting the public health, the District will:

- manage our treatment and collection systems in a planned and sustainable way to reduce impact on natural resources;
- strive for zero spills;
- meet or exceed regulatory requirements for treatment (effluent, emissions and biosolids);
- strive toward beneficial recycling of wastewater, biosolids and other resources using safe and effective processes and systems to achieve our zero-waste vision;
- collaborate with neighboring agencies to achieve efficiencies for the public;
- cooperate with stakeholders to leverage opportunities for protecting the bay and regional water resources for the people we serve;
- maintain a safe, high quality workplace to promote a sustainable, motivated, long-term and cohesive workforce;
- increase public education, participation, acceptance and understanding of what we do;
- responsibly manage the refuse franchise; and
- consider climate change, sea level rise and flooding when developing and designing new projects.

Our Core Values

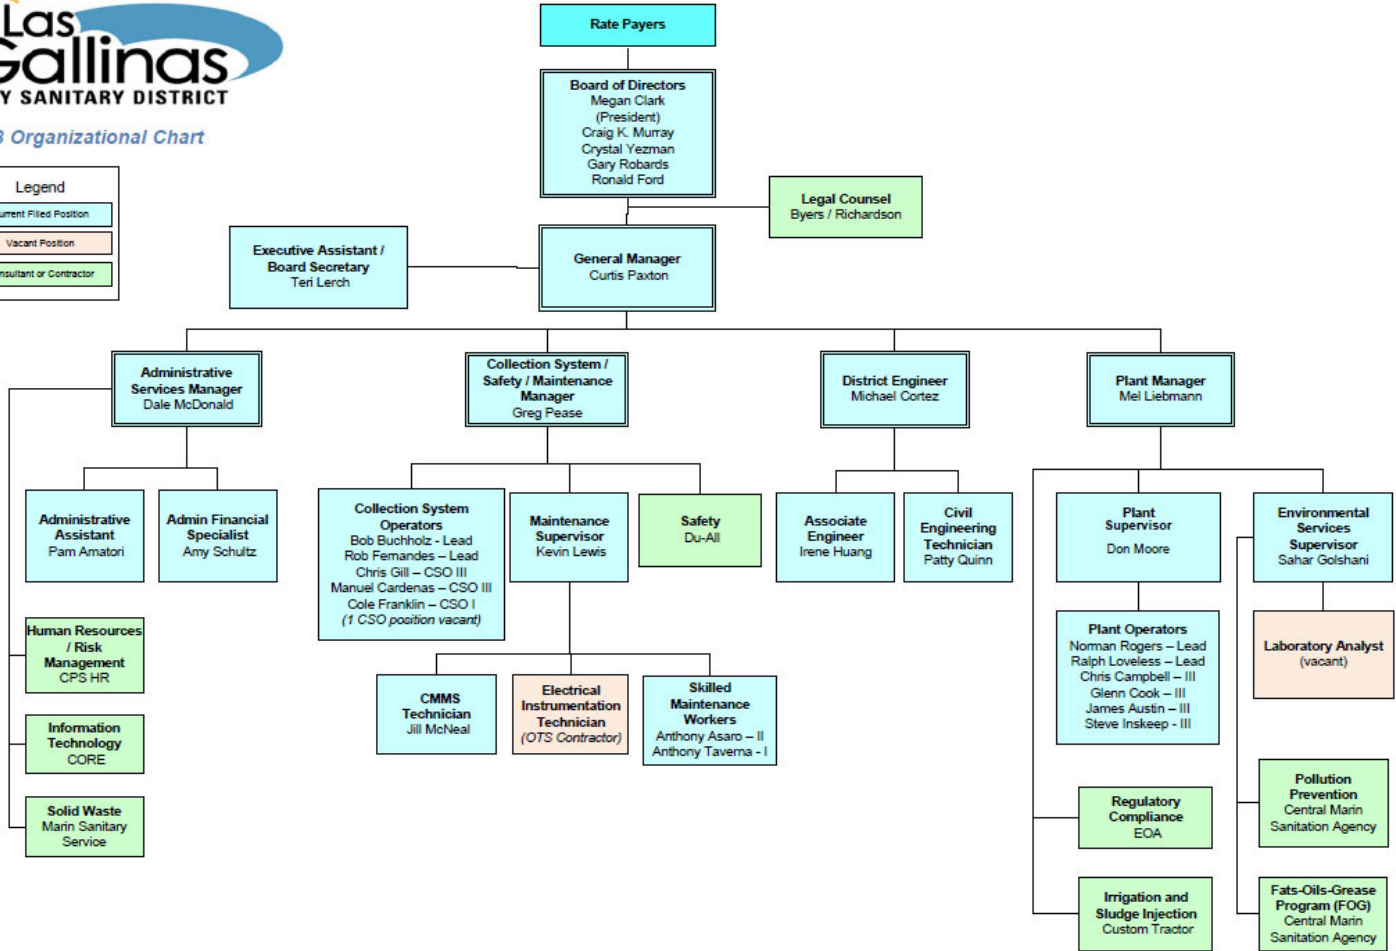

- Protect Public Health and the Environment.
- Provide High Quality Customer Service.
- Use Public Funds Responsibly.
- Maintain a Safe, Challenging, Positive Workplace.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Las Gallinas Valley Sanitary District
San Rafael, California

Opinion

We have audited the accompanying financial statements of the Las Gallinas Valley Sanitary District (District), which comprise the balance sheets as of June 30, 2022, and the related statements of revenue, expenses, and changes in net position, and cash flows for the year then ended, and related notes to the financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2022, and the respective changes in its financial position and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Change in Accounting Principle

As described in Notes 1 and 8 to the financial statements, as of July 1, 2020, the District adopted new accounting guidance, GASB Statement No. 87, Leases. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of the District's Proportionate Share of the Plan's Net Pension Liability, Schedule of the District's Contributions to the Pension Plan, Schedule of Changes in the District's Net OPEB Liability and Related Ratios, and Schedule of the District's Contributions to the OPEB Plan be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

The introductory, other information and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Prior-Year Comparative Information

The financial statements include partial prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in accordance with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2021, from which such partial information was derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a separate report dated January 24, 2023, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Murrieta, California
January 24, 2023

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Las Gallinas Valley Sanitary District
San Rafael, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Las Gallinas Valley Sanitary District (District), which comprise the balance sheet as of June 30, 2022, and the related statement of revenues, expenses and changes in net position and cash flows for the fiscal year then ended, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 24, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in blue ink that reads "Nigro & Nigro, PC". The signature is written in a cursive style with a stylized "N" and "P".

LAS GALLINAS VALLEY SANITARY DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Year Ended June 30, 2022 (With Comparative Amounts as of June 30, 2021)

Management's Discussion and Analysis (MD&A) offers readers of Las Gallinas Valley Sanitary District's financial statements a narrative overview of the District's financial activities for the year ended June 30, 2022. This MD&A presents financial highlights, an overview of the accompanying financial statements, an analysis of net position and results of operations, a current-to prior year analysis, a discussion on restrictions, commitments and limitations, and a discussion of significant activity involving capital assets and long-term debt. Please read in conjunction with the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- In fiscal year 2022, the District's net position increased 4.35% or \$3,894,642 from the prior year's net position of \$89,537,053 to \$93,431,695, as a result of the year's operations.
- In fiscal year 2021, the District's net position increased 5.49% or \$4,661,585 from the prior year's net position of \$84,875,468 to \$89,537,053, as a result of the year's operations.
- In fiscal year 2022, operating revenues increased by 0.91% or \$141,954 from \$15,545,309 to \$15,687,263 from the prior year, primarily due to an increase in sewer use assessments and charges revenue.
- In fiscal year 2021, operating revenues increased by 3.83% or \$573,909 from \$14,971,400 to \$15,545,309 from the prior year, primarily due to an increase in sewer use assessments and charges revenue.
- In fiscal year 2022, operating expenses before depreciation expense increased by 12.79% or \$1,138,058 from \$8,900,571 to \$10,038,629, from the prior year, primarily due to increases in sewage collection and pump stations, sewage treatment, and general and administrative costs.
- In fiscal year 2021, operating expenses before depreciation expense decreased by 12.24% or (\$1,240,842) from \$10,141,413 to \$8,900,571, from the prior year, primarily due to a significant reduction in sewage treatment costs of (\$1,403,910).

REQUIRED FINANCIAL STATEMENTS

This annual report consists of a series of financial statements. The Balance Sheet, Statement of Revenues, Expenses and Changes in Net Position and Statement of Cash Flows provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Balance Sheet includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness. The final required financial statement is the Statement of Cash Flows, which provides information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

LAS GALLINAS VALLEY SANITARY DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Year Ended June 30, 2022 (With Comparative Amounts as of June 30, 2021)

FINANCIAL ANALYSIS OF THE DISTRICT

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Balance Sheet and the Statement of Revenues, Expenses and Changes in Net Position report information about the District in a way that helps answer this question.

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting method used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's net position and changes in them. You can think of the District's net position – the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources – as one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning and new or changed government legislation.

Current assets – decreased by \$2,793,673 in 2022 as funds were drawn down to pay for construction of the Secondary Treatment Plant Upgrade Recycled Water Expansion (STPURWE) project.

Non-current assets – decreased by \$142,111 in 2022 primarily due to the right-to-use leased asset being amortized.

Capital assets, net of accumulated depreciation – increased by \$9,067,042 in 2022 primarily due to the construction-in-progress related to the SPTURWE project. The project is anticipated to be completed by the end of calendar year 2022 with the Notice of Completion filed in early January 2023.

LAS GALLINAS VALLEY SANITARY DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Year Ended June 30, 2022 (With Comparative Amounts as of June 30, 2021)

FINANCIAL ANALYSIS OF THE DISTRICT (continued)

Condensed Balance Sheets (continued)

Deferred outflows of resources – decreased by \$9,574 in 2022 due to the changes in the pension and other postemployment retirement benefits related items in accordance Government Accounting Standards Board No. 68, *Financial Reporting for Pension Plans* (GASB No. 68) and No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB No. 75).

Current liabilities – decreased in 2022 as fewer outstanding accounts payable and accrued expenses were outstanding compared to the prior year.

Noncurrent liabilities – had decreased by \$1,618,241 in 2022 primarily due to scheduled long-term debt principal repayments.

Deferred inflows of resources – increased \$1,731,817 in 2022 due to pension related deferred inflows based on greater actuarial assumptions under GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions* (GASB No. 75).

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources of the District exceeded liabilities and deferred inflows of resources by \$93,431,695 as of June 30, 2022.

By far the largest portion of the District's net position (69% as of June 30, 2022) reflects the District's investment in capital assets (net of accumulated depreciation) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its customers; consequently, these assets are not available for future spending.

At the end of year 2022, the District showed a positive balance in its unrestricted net position of \$28,166,017 which includes \$21,768,594 held as investments in the State of California Local Agency Investment Fund (LAIF), of which \$7,766,782 has been designated for District reserves; operating & rate stabilization, capital, emergency repair, and vehicle equipment reserves.

Management's Discussion and Analysis (Unaudited)

For the Year Ended June 30, 2022 (With Comparative Amounts as of June 30, 2021)

FINANCIAL ANALYSIS OF THE DISTRICT (continued)

Condensed Statements of Revenues, Expenses, and Changes in Net Position (continued)

The statement of revenues, expenses and changes in net position shows how the District's net position changed during the fiscal years.

In fiscal year 2022, the District's net position increased 4.35% or \$3,894,642 from the prior year's net position of \$89,537,053 to \$93,431,695, as a result of the year's operations.

Also, see the details of the prior period adjustments in Note 13 to the basic financial statements.

Total Revenues

	<u>June 30, 2022</u>	<u>June 30, 2021</u>	<u>Increase (Decrease)</u>	<u>June 30, 2020</u>	<u>Increase (Decrease)</u>
Operating revenues:					
Sewer use assessments and charges	\$ 15,491,846	\$ 15,284,365	\$ 207,481	\$ 14,831,995	\$ 452,370
Recycled water fees	127,742	123,155	4,587	67,288	55,867
Other operating revenues	67,675	137,789	(70,114)	72,117	65,672
Total operating revenues	<u>15,687,263</u>	<u>15,545,309</u>	<u>141,954</u>	<u>14,971,400</u>	<u>573,909</u>
Non-operating revenues:					
Property taxes	1,706,346	1,565,590	140,756	1,524,094	41,496
Franchise fees	162,382	153,351	9,031	124,693	28,658
Investment earnings	(168,833)	323,132	(491,965)	519,027	(195,895)
Total non-operating revenues	<u>1,699,895</u>	<u>2,042,073</u>	<u>(342,178)</u>	<u>2,167,814</u>	<u>(125,741)</u>
Total revenues	<u>\$ 17,387,158</u>	<u>\$ 17,587,382</u>	<u>\$ (200,224)</u>	<u>\$ 17,139,214</u>	<u>\$ 448,168</u>

Operating revenue – increased in 2022 was relatively flat compared to the prior year. While the sewer service charge (SSC) rate increase of 6.34% was imposed for 2022, lower water use by commercial customers in part due to the COVID-19 pandemic resulted in a reduction of non-residential SSC revenue received. It is anticipated that SSC revenue for non-residential customers will return to normal levels in the next fiscal year.

Non-operating revenues decreased as LAIF calculated a negative fair value measurement as of June 30, 2022.

Capital Contributions – to the District come from three primary sources:

A federal capital grant in the amount of \$597,226 was received from the United States Bureau of Reclamation in 2022. The additional grant funding was remaining funds from the Title XVI program previously awarded the District to expand the recycled water treatment facilities at the District. There is no guarantee for additional grant funding in future years.

Connection fees – are primarily dependent on the level of densification of existing development with the District. In previous years, development has consisted of decentralized development rather than new greenfield development. In 2021 and 2022, larger projects along with new greenfield development applications, have been submitted to the District resulting in an increase in connection fee revenue collected to reserve system capacity. Connection fee contributions increased to \$468,273 in 2022, up from the restated \$213,536 revenue in 2021. There is no guarantee that the connection free revenue will continue to grow at the current pace.

Marin Municipal Water District (MMWD) capacity purchase – are for the purchase of capacity from the previous recycled water treatment facility and its proportionate share of the expanded facility expenditures recently incurred as part of the STPURWE project.

FINANCIAL ANALYSIS OF THE DISTRICT (continued)

Total Expenses

	<u>June 30, 2022</u>	<u>June 30, 2021</u>	<u>Increase (Decrease)</u>	<u>June 30, 2020</u>	<u>Increase (Decrease)</u>
Operating expenses:					
Sewage collection and pump stations	\$ 1,941,906	\$ 1,570,736	\$ 371,170	1,272,839	297,897
Sewage treatment	3,211,152	2,865,940	345,212	4,269,850	(1,403,910)
Sewage and solid waste disposal	435,226	506,939	(71,713)	616,172	(109,233)
Laboratory	506,304	498,183	8,121	359,635	138,548
Engineering	982,986	874,206	108,780	616,435	257,771
Recycled Water	62,460	106,416	(43,956)	115,532	(9,116)
General and administrative	2,898,595	2,478,151	420,444	2,890,950	(412,799)
Total operating expenses	<u>10,038,629</u>	<u>8,900,571</u>	<u>1,138,058</u>	<u>10,141,413</u>	<u>(1,240,842)</u>
Depreciation and amortization expense	3,127,040	3,147,807	(20,767)	2,896,926	250,881
Non-operating expenses:					
Interest expense	1,903,924	2,000,579	(96,655)	1,461,238	539,341
Total non-operating expenses	<u>1,903,924</u>	<u>2,000,579</u>	<u>(96,655)</u>	<u>1,461,238</u>	<u>539,341</u>
Total expenses	<u>\$ 15,069,593</u>	<u>\$ 14,048,957</u>	<u>\$ 1,020,636</u>	<u>\$ 14,499,577</u>	<u>\$ (701,501)</u>

Operating expenses before depreciation expense – increased by 12.79% or \$1,138,058 from \$8,900,571 to \$10,038,629, from the prior year, primarily due to increases in sewage collection and pump stations, sewage treatment, and general and administrative costs.

Recycled water – expenses decreased once the new recycled water plant was brought online in March 2021. There was no recycled water capital replacement expenses in 2022.

Interest expense – decreased by \$96,655 as the District continues to make scheduled payments on its outstanding debt.

Capital Assets

	<u>Balance June 30, 2022</u>	<u>Balance June 30, 2021</u>	<u>Balance June 30, 2020</u>
Capital assets:

Depreciable assets	114,758,043	113,629,856	113,138,941
Accumulated depreciation	<u>(65,566,202)</u>	<u>(62,542,313)</u>	<u>(59,497,657)</u>
Total capital assets, net	<u>\$ 118,825,790</u>	<u>\$ 109,758,748</u>	<u>\$ 95,864,951</u>

At the end of year 2022, the District's investment in capital assets amounted to \$118,825,790 (net of accumulated depreciation), respectively. Capital asset additions amounted to \$12,090,931 for various projects and equipment. See Note 6 for further information.

LAS GALLINAS VALLEY SANITARY DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Year Ended June 30, 2022 (With Comparative Amounts as of June 30, 2021)

FINANCIAL ANALYSIS OF THE DISTRICT (continued)

Capital Assets (continued)

The major capital construction projects and activities for the fiscal year ended June 30, 2022 were:

- Substantial completion of the Secondary Treatment Plant Upgrade project
- Marin Lagoon Pump Station No. 1 replacement project
- New Operational Control Center building design begun
- Purchase of new collection system vehicles
- Various pump station and collection sewer system improvements

Debt Administration

The long-term debt of the District is summarized below:

	<u>Balance</u> <u>June 30, 2022</u>	<u>Balance</u> <u>June 30, 2021</u>	<u>Balance</u> <u>June 30, 2020</u>
Long-term debt payable	<u>\$ 54,482,713</u>	<u>\$ 51,213,926</u>	<u>\$ 48,487,908</u>

Long-term debt increased by a total of \$3,268,787 for the year ended June 30, 2022. Principal payments were \$2,700,783 and amortization of the debt premium amounted to \$121,353. See Note 9 for further information.

NOTES TO THE BASIC FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements.

ECONOMIC FACTORS, RATES AND BUDGETARY CONTROL

The District is a California Special District maintained as an enterprise fund. As a special district, charges to customers are made only to those who receive services. The District is not typically subject to general economic conditions such as increases or decreases in property tax values or other types of revenues that vary with economic conditions such as sales taxes. However, it does receive approximately 10% of its budget from property taxes which are dependent upon property tax valuations. Delinquent property tax payments will not materially impact the District as it participates in an optional alternative method for allocating delinquent property tax revenues. Using the accrual method of accounting under the Teeter Plan, Marin County allocates property tax revenues based on the total amount of property taxes billed, but not yet collected. The Teeter Plan allows counties to finance property tax receipts for local agencies, such as the District, by borrowing money to advance cash to each taxing jurisdiction in an amount equal to the current year's delinquent property taxes. There is always the possibility the State legislature changes the law in how future property tax revenue is allocated to special districts but the risk to the District remains small as just over 10% of its revenue comes from property taxes. Sewer Service Charges imposed by the District are placed on the property tax roll as a special assessment and, like property taxes under the Teeter Plan, delinquent tax payments by property owners will not materially impact the District. Accordingly, the District sets its user rates and capacity charges to cover the costs of operation, maintenance and recurring capital replacement and debt financed capital improvements, plus increments for known or anticipated changes in program costs.

LAS GALLINAS VALLEY SANITARY DISTRICT

Management's Discussion and Analysis (Unaudited)

For the Year Ended June 30, 2022 (With Comparative Amounts as of June 30, 2021)

ECONOMIC FACTORS, RATES AND BUDGETARY CONTROL (continued)

The District, as a wastewater collection and treatment plant operator, is subject to increasing regulatory compliance regulations. These regulations require upgrades to plant and equipment, as well as increased staff to effectively operate the system. The District reviewed its operating and capital needs during a three-year sewer service rate study through June 30, 2023. Most of the rate increase is for planned capital improvements, the largest of which is the upgrade to the treatment plant to improve wastewater processes to meet regulatory requirements followed by an Integrated Wastewater Master Plan and new Operations Control Center building planned for construction in 2025.

The expected revenue from sanitary service charges for the fiscal year 2022-23 is \$1,122 per Sanitary Unit. Expected Total Revenue is \$16,910,508.

The District and its Board adopts an annual budget to serve as its formal financial plan. The Board sets all fees and charges required to fund the District's operations and capital programs. The budget is used as a key control device (1) to ensure Board approval for amounts set for operations and capital projects; (2) to monitor expenses and project progress; and (3) as compliance that approved spending levels have not been exceeded. All operating activities and capital activities of the District are included within the approved budget.

The District is monitoring the changes in the current financial and credit markets. Reserve funds are invested in two ways. The majority of funds are invested in the Local Agency Investment Fund (LAIF), which is an investment pool managed by the Treasurer of the State of California. The Treasurer's office is regularly informing the pool members of the impact of changes in the investment landscape on the portfolio. The balance is held in savings accounts with the local Bank of Marin. Community based banks tend to be more conservative in their lending decisions and retain funds within the locality. Funds on deposit with the bank are covered by insurance from the Federal Deposit Insurance Corporation up to \$250,000. In addition, the funds are collateralized 110% by securities held in trust.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide the District's funding sources, customers, stakeholders and other interested parties with an overview of the District's financial operations and financial condition. Should the reader have questions regarding the information included in this report or wish to request additional financial information, please contact the Administrative Services Manager, 101 Lucas Valley Rd., Suite 300, San Rafael, CA 94903 – (415) 472-1734.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

A. Description of Organization

The Las Gallinas Valley Sanitary District (District) was formed on April 6, 1954 as a special district of the State of California. The District provides sewage collection, treatment, disposal, and wastewater recycling services, as well as manages the refuse hauling and recycling services franchise. The District currently serves over 30,000 people in communities north of central San Rafael. The District's wastewater treatment and recycling facilities are located in Marin County on over 400 acres on San Pablo Bay.

The scope of this report extends exclusively to the financial information presented for the District. The District is governed by a five-person Board of Directors (Board) elected for four-year terms. The Board has no oversight responsibility for any other governmental unit or agency. As such, the Board's governing authority, designation of management, ability to significantly influence operations, and accountability for fiscal matters extends only to the affairs of the District.

The criteria used in determining the scope of the financial reporting entity is based on the provisions of Governmental Accounting Standards Board Statement No. 61, The Financial Reporting Entity (GASB Statement No. 61). The District is the primary governmental unit based on the foundation of a separately elected governing board that is elected by the citizens in a general popular election. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) It is able to impose its will on that organization, or 2) There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

B. Basis of Presentation, Basis of Accounting

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied.

Operating revenues are those revenues that are generated from the primary operations of the District. The District reports a measure of operations by presenting the change in net position from operations as operating income in the statement of revenues, expenses, and changes in net position. Operating activities are defined by the District as all activities other than financing and investing activities (interest expense and investment income), grants and subsidies, and other infrequently occurring transactions of a non-operating nature. Operating expenses are those expenses that are essential to the primary operations of the District. All other expenses are reported as non-operating expenses.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position

1. Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments with a maturity of 90 days or less, when purchased, to be cash equivalents. Cash deposits are reported at the carrying amount, which reasonably estimates fair value.

2. Investments

Investments are reported at fair value except for short-term investments, which are reported at cost, which approximates fair value. Cash deposits are reported at carrying amount, which reasonably estimates fair value. Investments in governmental investment pools are reported at fair value based on the fair value per share of the pool's underlying portfolio.

In accordance with fair value measurements, the District categorizes its assets and liabilities measured at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique used to determine fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used in the determination of the fair value measurement fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

Financial assets and liabilities recorded on the balance sheet are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical investments, such as stocks, corporate and government bonds. The District has the ability to access the holding and quoted prices as of the measurement date.

Level 2 – Inputs, other than quoted prices, that are observable for the asset or liability either directly or indirectly, including inputs from markets that are not considered to be active.

Level 3 – Inputs that are unobservable. Unobservable inputs reflect the District's own assumptions about the factors market participants would use in pricing an investment, and is based on the best information available in the circumstances.

3. Restricted Assets

Amounts shown as restricted assets have been restricted by either bond indentures, external constraints, or laws and regulations of other governments.

4. Accounts Receivable

Customer accounts receivable consist of amounts owed by private individuals and organizations for services rendered in the regular course of business operations. The majority of the District's sewer user assessment revenue and all of the property tax revenue is collected by the County of Marin through charges on the tax rolls. The collections are remitted to the District as follows: 55% in December, 40% in April, and the balance of 5% during June and July. The June and July remittances allow the County as the collection agent to true-up any changes for revisions in the sewer charges after the initial calculation in August.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

5. Inventory – Materials and Supplies

Supply inventories maintained by the District consist primarily of chemicals, pipe fittings, valves, pumps and filers. Inventories are valued at cost using the first-in, first-out method.

6. Prepaids

Certain payments of vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

7. Right-To-Use Leased Asset and Right-To-Use Lease Payable

The primary objective is to enhance the relevance and consistency of information about the governments’ leasing activities. The District has established a single model for lease accounting based on the principle that leases are financings of a right-to-use underlying asset. As a lessee, the District is required to recognize a lease liability (payable) and an intangible right-to-use leased asset. At the commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The leased asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the leased asset is amortized on a straight-line basis over its useful life. The District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the leased asset and lease payable if certain changes occur that are expected to significantly affect the amount of the lease payable.

8. Capital Assets

Capital assets are stated at cost or at their estimated fair value at date of donation. It is the District’s policy to capitalize assets costing over \$5,000. The provision for depreciation is computed using the straight-line method over the estimated service lives of the capital assets. Estimated service lives for the District’s classes of assets are as follows:

Description	Estimated Lives
Subsurface lines	50-75 years
Facilities and structures	15-40 years
Equipment	5-20 years

9. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net assets that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

10. Compensated Absences

The District's personnel policies provide vacation and sick leave benefits to its employees. Upon separation from employment, employees are paid for accumulated vacation days and accrued administrative and compensated time off (overtime hours for which pay is not taken). Employees who have been with the District for at least three years are also paid for one-half of their accumulated sick days.

11. Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's Retiree Benefits Plan ("the Plan") and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments which are reported at cost.

The following timeframes are used for OPEB reporting:

Valuation Date June 30, 2020
Measurement Date June 30, 2021
Measurement Period July 1, 2020 to June 30, 2021

12. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's California Public Employees' Retirement System (CalPERS) plans and addition to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The following timeframes are used for pension reporting:

Valuation Date June 30, 2020
Measurement Date June 30, 2021
Measurement Period July 1, 2020 to June 30, 2021

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retirees) as of the beginning of the measurement period.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position (continued)

13. Net Position

Net position is classified into three components: net investment in capital assets, restricted and unrestricted. These classifications are defined as follows:

- **Net investment in capital assets** - This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.
- **Restricted net position** - This component of net position consists of constraints placed on net position use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted net position** - This component of net position consists of net position that does not meet the definition of "net investment in capital assets" or "restricted".

E. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Actual results could differ from those estimates.

F. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1, each year. Secured property taxes are levied on July 1 and are payable in two installments, on December 10 and April 10. The County of Marin County Assessor's Office assesses all real and personal property within the County each year. Property tax in California is levied in accordance with Article 13A of the State Constitution at one (1%) of countywide assessed valuations. The Marin County Treasurer's Office remits the total amount of property taxes billed regardless if they have been collected or not.

The property tax calendar is as follows:

Lien date January 1
Levy date July 1
Due dates November 1 and March 1
Collection dates December 10 and April 10

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 1 – DESCRIPTION OF ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (continued)

G. Grant Revenue

The District's grants are cost-reimbursement grants, which are earned as the allowable expenditures under the agreement are made. A receivable is recorded when the criteria established for requesting reimbursement under the grant agreement has been satisfied and the amount of reimbursement is determinable. Grants for feasibility studies are recorded as nonoperating income. Grants for capital purposes are reported as capital contributions.

H. Connection Fees

The District charges connection fees to developers to reserve system capacity. Amounts charged are recorded as liabilities (unearned connection fees) until connections are actually made. Once connections are made, the fees are recognized as increases to capital contributions.

I. Reclassifications

Certain amounts from the prior year have been reclassified to conform to the current year's presentation.

J. New Pronouncements – Governmental Accounting Standards Board (GASB)

During the fiscal year ended June 30, 2022, the District has implemented a new pronouncement as follows:

GASB Statement No. 87 – Leases

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement were effective for reporting periods beginning after December 15, 2019. However, GASB Statement No. 95 postponed its effective date by 18 months due to the COVID-19 pandemic and its effect on the audit/accounting industry. The District adopted the Statement as of July 1, 2020. See Note 8 for the effect of this Statement.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments were classified in the accompanying financial statements as follows:

<u>Description</u>	<u>June 30, 2022</u>
Cash and cash equivalents	\$ 33,297,575
Restricted – cash and investments	904,710
Total cash and investments	\$ 34,202,285

Cash and investments consisted of the following:

<u>Description</u>	<u>June 30, 2022</u>
Petty cash	\$ 648
Demand deposits held with financial institutions	11,808,594
Local Agency Investment Fund (LAIF)	21,488,333
Investments	904,710
Total cash and investments	\$ 34,202,285

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 2 – CASH AND INVESTMENTS (continued)

Demand Deposits with Financial Institutions

At June 30, 2022, the carrying amount of the District's demand deposits were \$11,808,716 and the financial institution's balances were \$11,837,208. The net difference represents outstanding checks, deposits-in-transit and/or other reconciling items between the financial institution's balance and the District's balance for each year.

Custodial Credit Risk – Deposits

Custodial credit risk for *deposits* is the risk that in the event of the failure of a depository financial institution the District will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction the District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits. The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. As of June 30, 2022, the District's deposits were covered by the Federal Deposit Insurance Corporation insurance limits or collateralized as required by California law.

Local Agency Investment Fund (LAIF)

The California State Treasurer, through the Pooled Money Investment Account (PMIA), invests its funds to manage the State's cash flow and strengthen the financial security of local public agencies. PMIA's policy sets as primary investment objectives safety, liquidity and yield. Through the PMIA, the Investment Division manages the Local Agency Investment Fund (LAIF). LAIF allows cities, counties, and special districts to place money in a major portfolio and, at no additional costs, use the expertise of Investment Division staff. Participating agencies can withdraw their funds from LAIF at any time as LAIF is highly liquid and has a dollar-in dollar-out amortized cost methodology.

The District is a voluntary participant in LAIF. The fair value of the District's investment in this pool is reported at an amount based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of the portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF. LAIF is not categorized under the fair value hierarchy established by GAAP as it is held at an amortized cost basis and it is Not Rated under the current credit risk ratings format. For financial reporting purposes, the District considers funds in LAIF a cash equivalent due to its highly liquid nature and dollar-in dollar-out amortized cost methodology. As of June 30, 2022, the District held \$21,488,333 in LAIF.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 2 – CASH AND INVESTMENTS (continued)

Investments

The District's investments as of June 30, 2022 are presented in the following Investment Table:

Type of Investments	Measurement Input	Credit Rating	Total Fair Value	Maturity		
				12 Months or Less	13 to 24 Months	25 to 120 Months
Negotiable certificates-of-deposit	Level 2	AAA	\$ 904,587	\$ -	\$ -	\$ 904,587
Money-market mutual funds	N/A	N/A	123	123	-	-
Total investments			\$ 904,710	\$ 123	\$ -	\$ 904,587

Authorized Investments and Investment Policy

The District has adopted an investment policy directing the fiscal officer to deposit funds in financial institutions to purchases financial investments in accordance with California Government Code 53600-53610.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer-term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by in the Investment Table that shows the distribution of the District's investments by maturity as of June 30, 2022.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented in the Investment Table are Standard & Poor's credit ratings for the District's investments as of June 30, 2022.

Concentration of Credit Risk

The District's investment policy contains no limitations on the amount that can be invested in any one governmental agency or non-governmental issuer beyond that stipulated by the California Government Code. There were no investments in any one governmental or non-governmental issuer that represented 5% or more of the District's total investments except for those in LAIF.

Fair Value Measurements

The District categorizes its fair value measurement within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are quoted prices for similar assets in active markets, and Level 3 inputs are significant unobservable inputs. All of the District's investments were assigned a Level 2 input on the Investment Table.

LAS GALLINAS VALLEY SANITARY DISTRICT

NOTE 3 – RESTRICTED CASH AND INVESTMENTS

Restricted cash and investments consists of unexpended proceeds from issuing the revenue bonds – 2017 and the related debt service reserve funds. The debt service reserve funds are invested in negotiable certificates-of-deposit with Bank of Marin with maturity dates in 2025 and money market mutual funds.

NOTE 4 – ACCOUNTS RECEIVABLE

The balance at June 30, 2022 and 2021 consisted of the following;

<u>Description</u>	<u>June 30, 2022</u>	<u>June 30, 2021</u>
Sewer use charges receivable	\$ 86,707	\$ 25,340
Sewer use charges – assessment receivable	125,742	114,259
Property taxes receivable	6,186	5,897
Retention receivable	567,760	-
Total accounts receivable	\$ 786,395	\$ 145,496

NOTE 5 – PRIVATE SEWER LATERAL ASSISTANCE PROGRAM

The District has a private sewer lateral assistance program which allows property owners to receive an advance to repair or replace their sewer laterals. The maximum that may be advanced under the program is \$10,000 per property, with interest charged at 2%, and the amount is repaid over 10 years through the property tax collections.

The activity in the program for the fiscal year ending June 30, 2022 consisted of the following;

<u>Description</u>	<u>Balance</u>
Balance at July 1, 2021	\$ 436,126
Payments received	(101,082)
Advances made	46,400
Balance at June 30, 2022	\$ 381,444

Scheduled payments to be received from the advances in future years are as follows:

<u>Fiscal Year</u>	<u>Payment</u>
2023	\$ 81,706
2024	76,320
2025	64,557
2026	41,526
2027	34,739
2028 - 2032	82,596

NOTE 8 – RIGHT-TO-USE LEASED ASSET AND RIGHT-TO-USE LEASE PAYABLE

Changes in right-to-use leased asset for fiscal year ending June 30, 2022 was as follows:

Description	Balance July 1, 2021	Additions	Deletions/ Transfers	Balance June 30, 2022
Right-to-use leased asset:				
Building space	\$ 515,756	\$ -	\$ -	\$ 515,756
Accumulated amortization:				
Building space	(163,323)	(103,151)	-	(266,474)
Total right-to-use leased asset, net	\$ 352,433	\$ (103,151)	\$ -	\$ 249,282

Changes in right-to-use lease payable for fiscal year ending June 30, 2022 was as follows:

Balance July 1, 2021	Additions	Payments	Balance June 30, 2022	Current Portion	Long-term Portion
\$ 366,547	\$ -	\$ (101,229)	\$ 265,318	\$ 106,244	\$ 159,074

Annual debt service requirements for the right-to-use lease payable are as follows:

Fiscal Year	Principal	Interest	Total
2023	\$ 106,244	\$ 4,343	\$ 110,587
2024	111,442	2,171	113,613
2025	47,632	238	47,870
Total	265,318	\$ 6,752	\$ 272,070
Current	(106,244)		
Long-term	\$ 159,074		

The District is reporting a total right-to-use leased asset, net of \$249,282 and a right-to-use lease payable of \$265,318 for the year ending June 30, 2022. Also, the District is reporting total amortization expense of \$103,151, principal payments of \$101,229 and interest expense of \$6,413 related to the above noted lease.

The lease held by the District does not have an implicit rate of return, therefore the District used their incremental borrowing rate of 2.00% to discount the lease payments to the net present value. In some cases leases contain termination clauses. In these cases the clause requires the lessee or lessor to show cause to terminate the lease.

The District's lease is summarized as follows:

Building Space

On December 1, 2019, the District entered into a 60-month lease for building space and a meeting room to serve as the District's administrative building. An initial right-to-use lease liability was recorded in the amount of \$515,756. The District makes monthly fixed lease payments of \$7,796 per month with a 3.0% annual increase. The lease has an implied interest rate of 2.0%. The District is amortizing the right-to-use leased asset of \$515,756 at \$8,596 per month. The District has plans to build a new administrative building at its plant location by fiscal year 2026. The District expects to continue the lease into fiscal year 2025.

Long-term	<u>\$ 2,254,080</u>		

Loan Payable – 2019

The District entered into an agreement with California Infrastructure and Economic Development Bank (iBank) in May 2019 for a loan of \$12,000,000. The loan has maturity dates ranging from August 1, 2019 through August 1, 2043; interest is due each February and August with the first payment due August 1, 2019. Payments of principal and interest are due whether or not any of the funds have been disbursed. As of June 30, 2022, \$11,432,240 of these funds have been received. The interest rate on the loan is 3.00% per annum. Annual debt service requirements for the loan payable are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 359,655	\$ 324,086	\$ 683,741

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 9 – LONG-TERM DEBT PAYABLE (continued)

Revenue Bonds – 2005

The District issued \$10,000,000 of Wastewater Revenue Certificates of Participation Bonds rated AA on November 15, 2005. The bonds had maturity dates ranging from December 1, 2006 through December 1, 2025 and carried an average interest rate of 4%. The net proceeds from the sale, after paying issuance costs, underwriter fees, and the reserve surety bond premium was \$9,774,000.

In April 2014, the bonds were refinanced with Municipal Finance Corporation, a private lender. The principal balance outstanding was \$6,880,000 and a 1% early call premium of \$68,800 was required to retire the bonds. The refinanced bonds payable of \$6,948,800 will be paid over the remaining term of the old debt, with principal payments due each December 1st; and interest payments are due each December 1st and June 1st through 2025. The interest rate on the refinanced debt is 3.3%.

The discount of \$42,442 and the call premium of \$68,800 are recorded as a deferred outflow of resources – deferred amount on debt refunding, net and is being amortized over the remaining term of the bond payments. The amount of amortization recorded to interest expense was \$9,467 for the year ended June 30, 2022.

The debt is payable solely from net revenues of the District. Net revenues consist generally of all revenues after payment of adjusted operation and maintenance costs and include property taxes received by the District. The bond requires the District to maintain a debt coverage ratio of earnings before interest, depreciation and amortization over scheduled principal payments of 1.15 to 1.0. Annual debt service requirements for the bond payable are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 630,000	\$ 78,665	\$ 708,665
2024	660,000	57,380	717,380
2025	690,000	35,105	725,105
2026	<u>718,000</u>	<u>11,860</u>	<u>729,860</u>
Total	2,698,000	<u>\$ 183,010</u>	<u>\$ 2,881,010</u>
Current	<u>(630,000)</u>		
Long-term	<u>\$ 2,068,000</u>		

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 9 – LONG-TERM DEBT PAYABLE (continued)

Revenue Bonds – 2017

The District issued \$38,365,000 of Revenue Bonds rated AAA on April 28, 2017. The bonds have maturity dates ranging from April 1, 2018 through April 1, 2042; interest is due each October and April with the first payment due October 1, 2017. The yield to maturity on the bonds ranges from 0.87% to 3.57% with a stated interest rate of 4% and a true interest cost of 3.2984%.

The bonds are generally callable in whole or in part on or after April 1, 2027. This special call provision relates to the expansion of the recycled water treatment facility to serve MMWD (See Note 16).

Issuance costs, surety bond premium and underwriter's discount were expensed in the year of issuance. The original issue premium will be amortized to interest expense annually at \$121,353 over the remaining term of the bonds.

The interest paid on the bonds qualifies as exempt from income tax for specified bond holders. As such the District is subject to Internal Revenue Code requirements concerning arbitrage. There are safe harbors for spending the bond proceeds that can exempt the District from having to rebate any excess interest earned on unspent funds in excess of interest paid to bond holders. The arbitrage calculation is required every five years; the first year will be in 2022.

The debt is payable solely from net revenues of the District. The loan requires the District to maintain a debt coverage ratio of earnings before interest, depreciation and amortization over scheduled principal payments of 1.25 to 1.0. Annual debt service requirements for the bond payable are as follows:

<u>Fiscal Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 1,110,000	\$ 1,335,000	\$ 2,445,000
2024	1,155,000	1,290,600	2,445,600
2025	1,205,000	1,244,400	2,449,400
2026	1,250,000	1,196,200	2,446,200

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Summary

The following balances on the balance sheet will be addressed in this footnote as follows:

<u>Description</u>	<u>2022</u>
OPEB related deferred outflows	\$ 747,317
Net other post-employment benefits obligation	932,334
OPEB related deferred inflows	967,408

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

A. General Information about the OPEB Plan

Plan Description

The District has established an agent multiple-employer other post-employment benefit plan that provides health insurance (OPEB Plan) to employees in accordance with the Memorandum of Understanding between the District and its employees. These employees must meet certain service requirements and retire directly from employment with the District. According to the most current postemployment medical benefits plan, effective July 1, 2014 there are four tiers of benefits.

Tier 1 – Employees who retired prior to January 1, 2003, with five years of service, receive a benefit that is indexed by 6% each year and are eligible for spousal coverage up to the benefit cap. The monthly cap was \$928 as of January 1, 2022.

Tier 2 – Employees who were employed prior to January 1, 2003, and retire with five years of District service, receive a monthly benefit that is set by the California Department of Personnel Administration. The monthly benefit cap was \$816 as of January 1, 2022. This benefit is available to the employee only without any spousal coverage.

Tier 3 – Employees hired after January 1, 2003 are eligible for benefits from 50% to 100% of the rate established by the California Department of Personnel Administration. They have to work for the District for at least five years, retire from the District, and have a minimum of 10 years of CalPERS agency service to receive a 50% benefit. The benefit increases 5% each year after that until the maximum coverage is reached at 20 years of service.

Tier 4 – Employees who are hired after July 1, 2014 and retire from the District after 10 years of service are eligible for benefits from 50% to 100% of the rate established by the California Department of Personnel Administration. The benefit increases 5% each year after that until the maximum coverage is reached at 20 years of service and is available only to the employee. All employees who retire from the District, have five years of CalPERS service credits, and participate in the CalPERS medical plan receive a benefit paid by the District equal to the minimum Public Employees' Medical and Hospital Care Act (PEMHCA) contribution. This monthly contribution is included in the cap outlined above for all tiers. However, an employee who is a member of Tier 3, but does not work for the District for five years, and has five years of CalPERS service credits, is eligible for the PEMHCA. The monthly amount was \$149 as of January 1, 2022.

Funding Policy

The contribution requirements of plan members and the District are established and may be amended by the District and/or the District's Board of Directors. Currently, contributions are not required from plan members. The District has been typically funding this OPEB plan on a pay-as-you-go basis with contributions being made to an OPEB Trust.

Contributions

Benefit provisions and contribution requirements are established and may be amended through agreements and memorandums of understanding between the District and its employees. The plan does not require employee contributions. Administrative costs of this plan are financed by the District. For the fiscal year ended June 30, 2022, the measurement period, the District's contributions totaling \$266,946 included \$139,560 placed in its OPEB Trust, \$106,5069 in current year premium payments, and an implied subsidy of \$20,880.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

A. General Information about the OPEB Plan (continued)

Accounting for the Plan

The other post-employment benefit trust is prepared using the accrual basis of accounting. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide contributions. Benefits are recognized when due and payable in accordance with the terms of each plan.

Method Used to Value Investments

Investments are reported in the accompanying financial statements at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measure date. Securities for which market quotations are not readily available are valued at their fair value as determined by the custodian with the assistance of a valuation service.

B. Net OPEB Liability

The District's total OPEB liability was measured as of June 30, 2021 and was determined by an actuarial valuation as of June 30, 2020. A summary of the principal assumptions and methods used to determine the total OPEB liability is shown below.

Actuarial Assumptions

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	June 30, 2020
Measurement Date	June 30, 2021
Actuarial Cost Method	Entry age normal, level percentage of payroll
Asset Valuation Method	Market value of assets as of the measurement date
Actuarial Assumptions:	
Discount Rate	
Long-Term Expected	
Rate of Return on Investments	6.25%
Inflation	2.75%
Payroll increases	3.00%
Healthcare Trend Rates	Non-Medicare - 7% trending down annually to 4% by 2076 Medicare (Non-Kaiser) - 6.1%, trending down annually to 4% in 2076 Medicare (Kaiser) - 5% trending down annually to 4% by 2076
Morbidity	CalPERS 1997 - 2015 Experience Study
Mortality	CalPERS 1997 - 2015 Experience Study
Disability	CalPERS 1997 - 2015 Experience Study
Retirement	CalPERS 1997 - 2015 Experience Study
	2.7% @ 55 and 2% @ 62
Percent Married	80% of future retirees would enroll a spouse

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

B. Net OPEB Liability (continued)

Actuarial Assumptions (continued)

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of the arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
PARS moderate investment policy:		
Equity	40.00%	4.56%
Fixed income	43.00%	0.78%
TIPS	5.00%	-0.08%
Commodities	4.00%	1.22%
REITs	8.00%	4.06%
Total	<u>100.00%</u>	

Discount Rate

The discount rate used to measure the total OPEB liability was 5.75%. The projection of cash flows used to determine the discount rate assumed that the District's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

C. Changes in the Net OPEB Liability

The changes in the total OPEB liability are as follows:

	<u>Increase (Decrease)</u>		
	<u>Total OPEB Liability</u>	<u>Plan Fiduciary Net Position</u>	<u>Net OPEB Liability</u>
Balance at June 30, 2021 (Measurement date June 30, 2020)	\$ 2,682,001	\$ 1,641,492	\$ 1,040,509
Changes for the year:			
Service cost	150,216	-	150,216
Interest	172,960	-	172,960
Differences in experience	-	-	-
Changes in assumption	172,113	-	172,113
Employer contributions	-	269,692	(269,692)
Net investment income	-	334,810	(334,810)
Benefit payments	(129,717)	(129,717)	-
Administrative expenses	-	(1,038)	1,038
Net changes	<u>365,572</u>	<u>473,747</u>	<u>(108,175)</u>
Balance at June 30, 2022 (Measurement date June 30, 2021)	<u>\$ 3,047,573</u>	<u>\$ 2,115,239</u>	<u>\$ 932,334</u>

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

C. Changes in the Net OPEB Liability (continued)

Changes of Assumptions

In fiscal year 2020-21, the measurement period, the discount rate was updated to 5.75% based on newer capital market assumptions.

Change of Benefit Terms

In fiscal year 2020-21, the measurement period, there were no changes to the benefit terms.

Subsequent Events

There were no subsequent events that would materially affect the results presented in this disclosure.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the District, as well as what the District’s total OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (4.75%) or 1 percentage point higher (6.75%) than the current discount rate:

	<u>1% Decrease 4.75%</u>	<u>Discount Rate 5.75%</u>	<u>1% Increase 6.75%</u>
Net OPEB Liability	<u>\$ 1,330,952</u>	<u>\$ 932,334</u>	<u>\$ 603,472</u>

Sensitivity of the Total OPEB Liability to Changes in Medical Trend Rates

The following presents the total OPEB liability of the District, as well as what the District’s total OPEB liability would be if it were calculated using medical trend rates that are 1-percentage point lower:

	Healthcare Cost		
	<u>7.0% Decreasing to 4.0%</u>	<u>8.0% Decreasing to 5.0%</u>	<u>9.0% Decreasing to 6.0%</u>
Net OPEB Liability	<u>\$ 557,889</u>	<u>\$ 932,334</u>	<u>\$ 1,390,706</u>

D. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2022, the District recognized OPEB expense of \$59,534. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

<u>Account Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
OPEB contributions made after the measurement date	\$ 266,946	\$ -
Changes in assumptions	142,941	(436,976)
Differences between expected and actual experience	337,430	(359,628)
Differences between projected and actual earnings on OPEB plan investments	-	(170,804)
Total Deferred Outflows/(Inflows) of Resources	<u>\$ 747,317</u>	<u>\$ (967,408)</u>

LAS GALLINAS VALLEY SANITARY DISTRICT
Notes to Financial Statements
June 30, 2022

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) (continued)

D. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB (continued)

The differences between projected and actual earnings on plan investments is amortized over five years. The District reported \$266,946 as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

<u>Amortization Period</u> <u>Fiscal Year Ended June 30</u>	<u>Deferred</u> <u>Outflows/(Inflows)</u> <u>of Resources</u>
2023	\$ (156,533)
2024	(147,862)
2025	(112,147)
2026	(100,601)
2027	<u>30,106</u>
Total	<u>\$ (487,037)</u>

At June 30, 2022, the District had no outstanding amount of contributions to the OPEB plan required for the year ended June 30, 2022.

NOTE 11 – PENSION PLAN

Summary

The following balances on the balance sheet will be addressed in this footnote as follows:

<u>Description</u>	<u>2022</u>
Pension related deferred outflows	\$ 938,333
Net pension liability	2,140,549
Pension related deferred inflows	1,914,385

Qualified employees are covered under a multiple-employer defined benefit pension plan maintained by agencies of the State of California known as the California Public Employees' Retirement System (CalPERS), or "The Plan".

LAS GALLINAS VALLEY SANITARY DISTRICT
Notes to Financial Statements
June 30, 2022

NOTE 11 – PENSION PLAN (continued)

A. General Information about the Pension Plan

The Plan

The District has engaged with CalPERS to administer the following pension plans for its employees (members):

	<u>Miscellaneous Plans</u>	
	<u>Classic Tier 1</u>	<u>PEPRA Tier 2</u>
Hire date	Prior to <u>January 1, 2013</u>	On or after <u>January 1, 2013</u>
Benefit formula	2.7% @ 55	2.0% @ 62
Benefit vesting schedule	5-years of service	5-years of service
Benefits payments	monthly for life	monthly for life
Retirement age	50 - 67 & up	52 - 67 & up
Monthly benefits, as a % of eligible compensation	2.0% to 2.7%	1.0% to 2.0%
Required member contribution rates	8.000%	6.250%
Required employer contribution rates – FY 2021	14.194%	7.732%

Plan Description

The District contributes to the California Public Employees’ Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. A full description of the pension plan, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2021 Annual Actuarial Valuation Reports. This report and CalPERS’ audited financial statements are publicly available reports that can be obtained at CalPERS’ website under Forms and Publications.

At June 30, 2021 measurement date, the following members were covered by the benefit terms:

<u>Plan Members</u>	<u>Miscellaneous Plans</u>		<u>Total</u>
	<u>Classic Tier 1</u>	<u>PEPRA Tier 2</u>	
Active members	10	12	22
Transferred and terminated members	11	9	20
Retired members and beneficiaries	28	-	28
Total plan members	<u>49</u>	<u>21</u>	<u>70</u>

All qualified permanent and probationary employees are eligible to participate in the District’s cost-sharing multiple-employer defined benefit pension plans administered by the California Public Employees’ Retirement System (CalPERS). Benefit provisions under the Plans are established by state statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 11 – PENSION PLAN (continued)

A. General Information about the Pension Plan (continued)

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to Plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonindustrial disability benefits after five years of service. The death benefit is one of the following the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost-of-living adjustments for each Plan are applied as specified by the Public Employees’ Retirement Law.

Contributions

Section 20814(c) of the California Public Employees’ Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for both Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

Contributions for the year ended June 30, 2022, were as follows:

Contribution Type	Miscellaneous Plans		Total
	Classic	PEPRA	
	Tier 1	Tier 2	
Contributions – member	\$ 508,919	\$ 92,811	\$ 601,730

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

Proportionate Share of Net Pension Liability and Pension Expense

The District’s net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability of each of the Plans is measured as of June 30, 2022, and the total pension liability for each Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2020, rolled forward to June 30, 2021, using standard update procedures. The District’s proportionate share of the net pension liability was based on a projection of the District’s long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The following table shows the District’s proportionate share of the risk pool collective net pension liability over the measurement period for the Miscellaneous Plan for the fiscal year ended June 30, 2022:

Measurement Date	Percentage Share of Risk Pool		
	Fiscal Year	Fiscal Year	Change
	Ending June 30, 2022	Ending June 30, 2021	Increase/ (Decrease)
June 30, 2021	June 30, 2020		
Percentage of Risk Pool Net Pension Liability	0.112732%	0.088546%	0.024186%
Percentage of Plan Net Pension Liability	0.039579%	0.034327%	0.005252%

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 11 – PENSION PLAN (continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Proportionate Share of Net Pension Liability and Pension Expense (continued)

The District’s proportionate share percentage of the net pension liability for the June 30, 2022, measurement date was as follows:

<u>Plan Type and Balance Descriptions</u>	<u>Plan Total Pension Liability</u>	<u>Plan Fiduciary Net Position</u>	<u>Change in Plan Net Pension Liability</u>
CalPERS – Miscellaneous Plan:			
Balance as of June 30, 2020 (Measurement Date)	\$ 14,952,822	\$ 11,217,902	\$ 3,734,920
Balance as of June 30, 2021 (Measurement Date)	\$ 15,668,213	\$ 13,527,665	\$ 2,140,548
Change in Plan Net Pension Liability	\$ 715,391	\$ 2,309,763	\$ (1,594,372)

For the year ended June 30, 2022, the District recognized pension expense of \$838,521. At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Account Description</u>	<u>Deferred Outflow of Resources</u>	<u>Deferred Inflows of Resources</u>
Pension contributions made after the measurement date	\$ 601,730	\$ -
Difference between actual and proportionate share of employer contributions		(45,799)
Adjustment due to differences in proportions	96,563	-
Differences between expected and actual experience	240,040	-
Differences between projected and actual earnings on pension plan investments	-	(1,868,586)
Changes in assumptions	-	-
Total Deferred Outflows/(Inflows) of Resources	\$ 938,333	\$ (1,914,385)

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year. The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period. The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, changes of assumptions, and differences between expected and actual experience in the measurement of the total pension liability will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is 3.8 years.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 11 – PENSION PLAN (continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Proportionate Share of Net Pension Liability and Pension Expense (continued)

An amount of \$601,730 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as a reduction to pension expense as follows:

<u>Amortization Period</u> <u>Fiscal Year Ended June 30</u>	<u>Deferred</u> <u>Outflows/(Inflows)</u> <u>of Resources</u>
2023	\$ (310,074)
2024	(343,230)
2025	(408,096)
2026	<u>(516,382)</u>
Total	<u>\$ (1,577,782)</u>

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ending June 30, 2021 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2020, total pension liability. The June 30, 2022, total pension liability was based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirement of GASB Statement No. 68
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table	Derived using CalPERS' Membership Data for all
Post Retirement Benefit Increase	Contract COLA up to 2.50% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 11 – PENSION PLAN (continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (continued)

Long-term Expected Rate of Return (continued)

The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The table below reflects long-term expected real rate of return by asset class.

Investment Type ¹	New Strategic Allocation	Real Return Years 1 - 10 ²	Real Return Years 11+ ³
Global Equity	50.0%	4.80%	5.98%
Fixed Income	28.0%	1.00%	2.62%
Inflation Assets	0.0%	0.77%	1.81%
Private Equity	8.0%	6.30%	7.23%
Real Estate	13.0%	3.75%	4.93%
Liquidity	1.0%	0.00%	-0.92%
	100.0%		

¹ In the CalPERS's ACFR, fixed income is included in global debt securities; liquidity is included in short-term investments; inflation assets are included in both global equity securities and global debt securities.

² An expected inflation rate-of-return of 2.5% is used for years 1-10.

³ An expected inflation rate-of-return of 2.9% is used for years 11+.

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Subsequent Events

There were no subsequent events that would materially affect the results in this disclosure.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability/(asset) of the Plan as of the measurement date, calculated using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15%) or 1 percentage-point higher (8.15%) than the current rate:

Plan Type	Plan's Net Pension Liability/(Asset)		
	Discount Rate - 1% 6.15%	Current Discount Rate 7.15%	Discount Rate + 1% 8.15%
	CalPERS – Miscellaneous Plan	4,209,237	\$ 2,140,549

Right-to-use lease payable, net	(366,547)
Miscellaneous	<u>(2)</u>
Total adjustments	<u>106,040</u>
Beginning of year, as restated – July 1, 2021	<u>\$ 89,537,053</u>

NOTE 14 – DEFERRED COMPENSATION SAVINGS PLAN

For the benefit of its employees, the District participates in two 457 Deferred Compensation Programs (Programs). The purpose of these Programs is to provide deferred compensation for public employees that elect to participate in the Programs. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death, or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District, and are not subject to claims of the District’s general creditors.

The District has implemented GASB Statement No. 32, *Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans*. Since the District has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the accompanying financial statements.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 15 – RISK MANAGEMENT POOL

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; errors and omissions; and natural disaster. The District's insurance coverage is carried through the California Sanitation Risk Management Association (CSRMA) in pooled programs and through a commercial insurance carrier. CSRMA is a public entity risk pool currently operating as a common risk management and insurance program for member sanitary districts located throughout California. The purpose of CSRMA is to spread the adverse effects of losses among the member entities and to purchase excess insurance as a group. Although CSRMA may assess additional premiums to a member district in the event of losses in excess of reserves, no additional assessments have occurred nor are they contemplated. The financial statements of CSRMA are available their website, www.csrma.org. Condensed financial information for CSRMA is presented below:

A. Entity	CSRMA
B. Purpose	To spread the adverse effects of losses among the member entities and purchase excess insurance as a group.
C. Participants	As of June 30, 2021 – 59 member districts
D. Governing board	Ten representatives employed by members
E. Condensed financial information	June 30, 2021
Audit signed	
Statement of financial position:	<u>June 30, 2021</u>
Total assets	<u>\$ 31,110,033</u>
Total liabilities	<u>24,687,781</u>
Net position	<u><u>\$ 6,422,252</u></u>
Statement of revenues, expenses and changes in net position:	
Total revenues	\$ 15,793,441
Total expenses	<u>(16,584,260)</u>
Change in net position	(790,819)
Beginning - net position	<u>7,213,071</u>
Ending - net position	<u><u>\$ 6,422,252</u></u>
F. Member agencies share of year-end financial position	Not Calculated

The District maintains workers' compensation coverage and employer's liability coverage in accordance with the statutory requirements of the State of California.

Settled claims have not exceeded any of the coverage amounts in any of the last three fiscal years and there were no reductions in the District's insurance coverage during the years ending June 30, 2022, 2021, and 2020. Liabilities are recorded when it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated net of the respective insurance coverage. Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of June 30, 2022, 2021, and 2020.

NOTE 16 – COMMITMENTS AND CONTINGENCIES

Marin Municipal Water District Water-Reclamation Agreement

In 2017, the District entered into a purchase and sale of recycled water agreement with MMWD to provide MMWD with up to 2.5 million gallons per day of plant capacity to produce a minimum of 600 acre fee per year, for 30 years. As part of the agreement, MMWD made an initial payment towards the cost of the existing facility of \$333,563 and will make quarterly payments of \$51,637 through October 1, 2022 and after that \$26,890 per quarter through July 1, 2031 for their proportional share of loans made in 2011 and 2012. In addition, the District has designed an expansion of the existing facility in order to serve MMWD. Funding for the expansion is from part of the proceeds of the 2017 Revenue Bonds and a WaterSmart Grant awarded in 2015. The project was awarded to Myers & Sons Construction LLC on November 15, 2018 by the Board and the estimated construction cost was \$48,622,939. On December 17, 2018 the General Manager signed the contract. The cost of the portion of the expansion ascribed to MMWD is \$4.6 million with payments due semi-annually on April 1st and October 1st through April 1, 2042. MMWD paid \$463,269 in 2022 per the agreement. The agreement superseded the previous Treatment Wastewater Agreement with MMWD, which terminated in June 2021, after the expanded recycled water facility began operation. (See Note 9 – Revenue Bonds – 2017 for further information)

The agreement with MMWD will be modified to revise the payment amounts due the District once the project is completed and all costs are known. MMWD is responsible for demolishing the existing facility which is located on the District's site.

In addition to these payments, MMWD will be charged for deliveries of recycled water based on the District's regular, ongoing operations and maintenance costs. Both the District and MMWD are required to annually deposit into a capital repair and replacement fund equal to 10% of annual operations and maintenance costs.

Future minimum payments expected to be received from MMWD are as follows:

<u>Fiscal Year</u>	<u>Total</u>
2023	\$ 413,480
2024	364,049
2025	364,447
2026	364,111
2027	364,111
2028-2032	1,740,580
2033-2037	1,307,599
2038-2042	<u>1,277,478</u>
	<u>\$ 6,195,855</u>

North Marin Water District Recycled Water Production Agreement

In 2011, the District entered into an agreement with North Marin Water District (NMWD) to annually produce at least 220 acre feet of recycled water for 20 years. A Second Revised Inter-Agency agreement with NMWD was entered into on June 30, 2022, extending the term 30 years with recycled water delivery maximum capacity set at 0.7 million gallons per day. NMWD will reimburse the District for its operating and maintenance costs associated with producing the recycled water.

LAS GALLINAS VALLEY SANITARY DISTRICT

Notes to Financial Statements

June 30, 2022

NOTE 16 – COMMITMENTS AND CONTINGENCIES (continued)

Excluded Leases – Short-Term Leases and De Minimis Leases

The District does not recognize a lease receivable and a deferred inflow of resources for short-term leases. Short-term leases are certain leases that have a maximum possible term under the lease contract of 12-months (or less), including any options to extend, regardless of their probability of being exercised.

Also, *de minimis* lessor or lessee leases are certain leases (i.e., room rental, copiers, printers, postage machines) that regardless of their lease contract period are *de minimis* with regards to their aggregate total dollar amount to the financial statements as a whole.

Grant Awards

Grant funds received by the District are subject to audit by the grantor agencies. Such audit could lead to requests for reimbursements to the grantor agencies for expenditures disallowed under terms of the grant. Management of the District believes that such disallowances, if any, would not be significant.

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

NOTE 17 – SUBSEQUENT EVENTS

The District has evaluated subsequent events through January 24, 2023, the date which the financial statements were available to be issued.

Required Supplementary Information

June 30, 2021	0.03958%	2,140,549	2,767,942	77.33%	86.34%

Notes to Schedule:

Benefit Changes:

There were no changes in benefits.

Changes in Assumptions:

From fiscal year June 30, 2015 and June 30, 2016:

GASB 68, paragraph 68 states that the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expense. The discount rate of 7.50% used for the June 30, 2014, measurement date was net of administrative expenses. The discount rate of 7.65% used for the June 30, 2015, measurement date is without reduction of pension plan administrative expense.

From fiscal year June 30, 2016 to June 30, 2017:

There were no changes in assumptions.

From fiscal year June 30, 2017 to June 30, 2018:

The discount rate was reduced from 7.65% to 7.15%.

From fiscal year June 30, 2018 to June 30, 2019:

There were no significant changes in assumptions.

From fiscal year June 30, 2019 to June 30, 2020:

There were no significant changes in assumptions.

From fiscal year June 30, 2020 to June 30, 2021:

There were no significant changes in assumptions.

Las Gallinas Valley Sanitary District

Glossary of Acronyms

In order to help the reader better understand the terms and abbreviations used in this document, management is providing a list of acronyms and their definitions.

ACRONYM	NAME	DEFINITION
AAL	Actuarial Accrued Liability	The actuarial present value of all postemployment benefits attributable to past service.
AICPA	American Institute of Certified Public Accountants	The national professional organization of Certified Public Accountants (CPAs) in the United States. It sets ethical standards for the profession and U.S. auditing standards for audits of private companies, nonprofit organizations, federal, state and local governments. It also develops and grades the Uniform CPA Examination.
AOC	Annual OPEB Cost	An accrual-basis measure of the periodic cost of an employer's participation in a defined benefit OPEB plan. The annual OPEB cost is the amount that must be calculated and reported as an expense.
ARC	Annual Required Contribution	The employer's periodic required contributions to a defined benefit OPEB plan, calculated in accordance with the parameters.
Auditors' Opinion	Unmodified Opinion	An opinion is said to be unmodified when the Auditor concludes that the Financial Statements give a true and fair view in accordance with the financial reporting framework used for the preparation and presentation of the Financial Statements. An Auditor gives a Clean opinion or Unmodified Opinion when he or she does not have any significant reservation in respect of matters contained in the Financial Statements. The most frequent type of report is referred to as the "Unmodified Opinion," and is regarded by many as the equivalent of a "clean bill of health" to a patient, which has led many to call it the "Clean Opinion," but in reality it is not a clean bill of health, because the Auditor can only provide reasonable assurance regarding the Financial Statements, not the health of the entity itself, or the integrity of company records not part of the foundation of the Financial Statements. This type of report is issued by an auditor when the financial statements presented are free of material misstatements and are represented fairly in accordance with the Generally Accepted Accounting Principles (GAAP), which in other words means that the entity's financial condition, position, and operations are fairly presented in the financial statements. It is the best type of report an auditee may receive from an external auditor.

Las Gallinas Valley Sanitary District
Glossary of Acronyms (continued)

ACRONYM	NAME	DEFINITION
ACFR	Annual Comprehensive Financial Report	A set of U.S. government financial statements comprising the financial report of a state, municipal or other governmental entity that complies with the accounting requirements promulgated by the GASB.
CalPERS	California Public Employees Retirement System	The California Public Employees' Retirement System is an agency in the California executive branch that "manages pension and health benefits for more than 1.6 million California public employees, retirees, and their families."
CERBT	California Employers' Retiree Benefit Trust	An investment vehicle that can be used by all California public employers to prefund future retiree health and OPEB.
CSRMA	California Sanitation Risk Management Association	A joint powers authority which provides broad coverage and risk management services to its members who are primarily local government agencies that provide water and wastewater services.
COP	Certificates of Participation	A financial document that is used by a municipal government or other government entity creates a bond issue. Revenues of the issuer are pledged to repay the bonds rather than being secured by property.
ERAF	Education Revenue Augmentation Funds	A fund used to collect the property taxes in each county that are shifted from cities, the county and special districts prior to their reallocation to K-14 school agencies. The county treasurer maintains the ERAF on behalf of the county auditor.
FASB	Financial Accounting Standards Board	Financial Accounting Standards Board (FASB) is a private, not-for-profit organization whose primary purpose is to develop generally accepted accounting principles (GAAP) within the United States in the public's interest.
FOG	Fats, Oils and Grease	Substances than can cause overflows of sanitary sewer systems if not disposed of properly.
GAAP	Generally Accepted Accounting Principles	The standard framework of guidelines for financial accounting used in any given jurisdiction; generally known as accounting standards or standard accounting practice. These include the standards, conventions, and rules that accountants follow in recording and summarizing and in the preparation of financial statements.

Las Gallinas Valley Sanitary District
Glossary of Acronyms (continued)

ACRONYM	NAME	DEFINITION
GASB	Governmental Accounting Standards Board	Currently the source of generally accepted accounting principles (GAAP) used by state and local governments in the United States of America.
I&I	Infiltration and Inflow	Infiltration is groundwater entering sanitary sewers through defective pipe joints and broken pipes. Inflow is water entering sanitary sewers from inappropriate connections such as roof drains, cellar drains, and yard drains.
LAIF	Local Agency Investment Fund	A fund managed by the Office of the Treasurer of the State of California, which is available for local governments.
MD&A	Management Discussion and Analysis	An integrated part of the annual financial statements. The purpose of the MD&A is to provide a narrative explanation, through the eyes of management, of how an entity has performed in the past, its financial condition, and its future prospects.
MGD	Million Gallons per Day	Measurement unit used for calculating volume of wastewater treated at the plant.
MMWD	Marin Municipal Water District	Water agency for Marin County serving areas south of Ignacio.
NBWRA	North Bay Water Reuse Authority	A coordinated regional group of water and sanitation agencies in Sonoma, Marin, and Napa Counties to offset potable water demand by promoting water reuse for agriculture, urban, and environmental uses.
NMWD	North Marin Water District	Water agency for Marin County serving areas north of Ignacio and some coastal communities.
OPEB	Other Postemployment Benefits	Postemployment benefits other than pension benefits. Other postemployment benefits (OPEB) include postemployment healthcare benefits, regardless of the type of plan that provides them, and all postemployment benefits provided separately from a pension plan, except benefits defined as special termination benefits.

STATISTICAL SECTION

Las Gallinas Valley Sanitary District

Introduction to the Statistical Section

This section of the Las Gallinas Valley Sanitary District's Annual Comprehensive Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, required supplementary information, and supplementary information says about the District's overall health.

Financial Trend Information

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

- Balance Sheets
- Statements of Revenues, Expenses and Changes in Net Position

Revenue Capacity Information

These schedules contain information to help the reader assess the factors affecting the District's ability to generate its largest single own-source revenue: sewer service charges.

- Sewer Service Charge Revenue
- Sewer Service Rates per Eligible Dwelling Unit
- Principal Revenue Payers
- Summary of Sewer Customers by Class

Debt Capacity Information

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

- Revenues, Expenditures, Debt Service Coverage and Cash Flows from Operations
- Outstanding Debt per Connection
- Other Postemployment Benefits Funding Status and Covered Lives

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place and to help make comparisons over time and with other governments.

- Demographic and Economic Statistics
- Principal Employers in Marin County

Operating Information

These schedules contain information about the District's operations and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.

- Recycled Water Production
- Daily Average Influent Flow
- Private Sewer Lateral Assistance Program
- Collection System Services
- Full-time Equivalent Employees by Function

² Western Regional Climate Center, www.wrcc.dri.edu, rainfall reporting for the San Rafael Civic Center, California July 1 - June 30.

³ National Weather Service Forecast Office, <http://w2.weather.gov/climate/xmacis.php?wfo=mtr> for San Rafael Civic Center, July - June

⁴ North Marin Water District weather monitoring station at Highways 37 and 101 near Black Pointe.

⁵ Marin Water District weather monitoring station at Lake Lagunitas.

Note: Concentrated efforts by the District to reduce infiltration and inflow (I&I) to the sewer collection system during wet weather events through its repair, replacement and maintenance program is demonstrated in the above graph. As rainfall increases, there been a gradual decrease in daily average flow at the treatment plant; this indicates that the District's sewer rehabilitation program is reducing I&I into the sewer system.
