

RECEIVE A BRAND NEW FREE DIGITAL THERMOMETER

March is Poison Prevention month (A partnership between pharmacies in Marin and our sanitation agencies will use this opportunity to reduce a toxic substance, Mercury, from our environment). Marin's sanitation agencies will supply free digital thermometers to five Marin pharmacies throughout March.

Mercury is a toxic metal found in many glass thermometers and is very dangerous to your health and the environment if the thermometer breaks.

To exchange your older style mercury thermometer for a free digital thermometer, simply take in your old style Mercury thermometers to one of the participating pharmacies during their regular business hours in the month of March. The participating pharmacy will give you a free digital thermometer.

The five pharmacies participating in the thermometer exchange are:

MILL VALLEY
Pharmaca

LARKSPUR
Ross Valley
Pharmacy

SAN ANSELMO
Jack's Drugs

TERRA LINDA
Marin Medical
Pharmacy

NOVATO
Pharmaca
